

This proposal is a clear violation of fair use, If these studios had their way, fair use would not even exist. A consumer has the right to record a broadcast for their own personal use, to limit recording, puts a limit on that right. DO NOT ALLOW THIS. CBS says they will stop broadcasting in HDTV, that is their choice, but it is a choice that will hurt them in the end, not us. Let the companies put a hold on their broadcasts, their advertisers will change their mind for them. PLEASE DO NOT LET THEM PUSH THE FCC AROUND. These people have too much power as it is.
